DB FIRE SAFETY LTD

It is easy to think that the only consideration when discussing fire safety in a school is getting the children out of the building. Whilst that might be the priority if you are unfortunate enough to have a fire, how about trying to prevent a fire from occurring in the first place?

So, here are a few suggestions that at least go some way to helping prevent the event none of us want to occur:

1. Ensure your fixed electrical wiring has been inspected annually and tested every 5 years by a suitably qualified electrical contractor.
2. Keep combustible items well away from potential sources of heat or electrical spark.
3. Ensure you have a sufficient number of staff appointed to act as Fire Marshals to sweep the entire building to ensure everyone has been evacuated safely.
4. Ensure your procedures are sufficiently robust to ensure you know precisely who, and how many, are on the premises.
5. Do you have sufficient means to raise an alarm? Are all alarm call points visible and accessible? Do you have sufficient means to detect a fire in rooms that contain a fire hazard but might not always be occupied (e.g. Plant Rooms, Boiler Rooms, Server Rooms etc. etc.)

And finally...is your fire risk assessment current, and can be considered to be suitable and sufficient?

If you think you need some assistance then you can contact David at DB Fire Safety Limited on 0800 772 0559 or Email enquiries@dbfiresafety.co.uk

ARE YOU PREPARED FOR A MAJOR EMERGENCY?

Continuity West has carried out a full business continuity management lifecycle programme, including a Business Impact Analysis, for a multi academy trust which is transferable to other educational establishments at a fraction of the cost. The resulting 25 plans are provided in a web based programme called MIMS (Major Incident Management System) that also houses contact lists and documents. It records everything that is done and has a notification element. We also have used this to run exercises for schools and MAT's

THE BRITISH KODALY ACADEMY promotes the advancement of British music education, following the teachings of Zoltan Kodaly

Courses for everyone wanting to develop their singing, musicianship and conducting skills

Teachers helped to develop skills and confidence to deliver music lessons at all levels - Early Years, KS One, Two and beyond - to Higher Education and Instrumental Teaching

"The course opened up my mind as a musician and as a teacher. I can't recommend it highly enough!"
